

### **Fayette County Fairgrounds Testing extended through Saturday Aug 22<sup>nd</sup>**

Day one of the Covid-19 multi-day testing has shown a terrific turnout; hundreds of students, teachers and staff have been tested. Registration is done onsite and the testing is quick and painless.

For the remainder of the week, testing will be open to anyone who wants to be tested and there is no residency requirement. There is also no cost for the service. In order to serve all who need to be tested, we have extended the availability for one additional day; Saturday August 22<sup>nd</sup>. This will allow those who are unavailable Monday through Friday to have an opportunity.

Please bring your smart phone for faster registration.

Thank you to our State of Texas partners for providing this service, and thank you to the City of La Grange for hosting the event.
