

This is a reminder that supplies of hand sanitizer and bleach for disinfecting have been made available by the County Emergency Management & Homeland Security officer, Craig Moreau. Craig sent out a message recently to health care providers/facilities and child care providers that these supplies could be accessed through the Fayette County Extension Office. Our office is on skeletal staff but you may call or email us to request supplies and they will be made available for pick up.

The hand sanitizer can be picked up at the Fayette County Agricultural Building, 255 Svoboda Lane, La Grange and the bleach at the Fayette County Recycle Center. For the bleach, you will need a request letter from our office, which we will provide for pickup outside our building. You will also need to bring a container for the bleach which will be filled at the Recycle Center once you provide our letter. You can use various containers but you do need to be sure the bleach is not mixing with other chemicals that may have been left in the container.

Thank you and if you have any questions, please do not hesitate to contact our office.
